

Infinity 100W UFO LED High Bay Light

Product Description

A cost-effective and energy-efficient alternative to traditional commercial light fittings, this Infinity 100W UFO LED High Bay Light from Mirrorstone has everything you'll need and a lot more.

An all-in-one 186 x 251mm unit that can be installed very quickly and easily, it's a tough and robust unit that can double as a low bay light if necessary. That's because its 90° beam angle is sufficient to illuminate a wide area of your warehouse or storeroom no matter how high up you install it.
